Website Optimization

First we review your website and identify which areas need optimization to make the site more Google friendly. Oftentimes, sites may have duplicate content, session ID numbers, flash content, dynamic content and other such problems which prevent web pages from being indexed. In addition, we will review your keywords and use keyword research tools to create a list of the most searched terms for your website or industry. We will determine which sites rank high in the predetermined search terms. We will study the competition's sites and create architecture to surpass their rankings in Google.

Keywords will be integrated in your content using proper SEO keyword densities. Our writers will consult with you to ensure that the essence of your website is not compromised and that you are happy with the content we create. We will write original, 300 to 600-word articles which are keyword rich and related to your products or services. The articles would then be posted on your website to increase its content.

Link Development

The development of incoming links from well-established, high ranking websites is one of the major variables in attaining high search engine rankings in Google. Link development is absolutely essential to your website's success and is a major part of the optimization service that we offer. A high quantity of quality links can be developed through a variety of means, including:

- One-way links from directories and other related sites
- Reciprocal link exchanges with related sites
- Fee-based directory submissions

Link building can be time consuming and expensive. This cost will be in addition to our SEO fees and is not marked up.

We may also suggest the following services:

- Article writing and submission to article directories
- Blog postings and/or creation
- Press release writing and submissions
- Social Media Optimization (SMO) and postings

We may also employ the concept of creating 100 or more of our own websites pointing directly to This has proven to be very effective.the site we are optimizing.
Submission

After the optimization process is complete, we will submit your website to all the major search engines and directories, including Google, Yahoo and MSN. In addition, we will submit your website to fee-based directories such as Yahoo Directory, Best of The Web, GoGuides, Business.com and others. We will also manually "hand submit" your website to 300 to 500 directories that we have researched and found to help in developing link popularity. Lastly, if your website has indexing issues, we will create and submit site maps to both Google and Yahoo via their respective programs.

Lending Universe is setting new standards in the world of commercial and residential loans, mortgage brokers and the loan calculation process. For too long, people have been seeking the right mortgage, [small business loan](#), commercial loan or [home construction loan](#) without having access to a quick, secure and reliable source. Lending Universe has introduced a fast, hassle-free, reliable and thorough new way to deliver the best online quotes to your customers. From lending to borrowing, we always set the highest standards!

With our service, it is easier than ever to harness the benefits of multiple-lender bidding. Saving money, saving time and ensuring that your credit history is maintained are just three of the benefits to a good residential loan. At LendingUniverse.com, you can have private investors compete for your business, and secure a residential loan without proof of income or verification of finances. We offer a patent-pending, 100% free [notary](#) finding service. All these advantages plus an easy-to-complete online loan request make securing a [bad credit mortgage](#) residential loan easier than ever through Lending Universe.

Each loan calculation at LendingUniverse.com delivers results from both private investors and wholesale lenders, ensuring our clients only the very best financial options. With Lending Universe, stressful and confusing search processes are completely eliminated. From [mobile home loans](#) to hard money loans, [commercial mortgage](#) and [hard money loans](#) to mortgage lenders, our site is specifically designed to direct you to what you need.

When filling out online forms, few things are as important to people as security and peace of mind. At LendingUniverse.com, your security is of paramount importance. Whether it's for loans or mortgages, each FREE search you do is protected by our secure and integrated software.

When you complete our easy-to-use and well-structured loan calculating form, you can rest assured that each piece of information is safe from outside infiltration and is treated with absolute confidence. With so many commercial loans being searched for, we consider it imperative to use the very best and most secure software available.

Regardless of whether you are looking for a [commercial loan](#), mortgage loan, [SBA loan](#), or [refinancing](#), or if you are trying to [find an appraiser](#). Lending Universe is dedicated to getting you the best quotes from both private and wholesale lenders. Our search form is time efficient and user friendly and our results always accurate and instant. Loans can be time consuming to find, especially if you are looking to get a selection of quotes for your customers of lead generation. Lending Universe takes that all in hand and creates a whole new experience designed to enhance your search, provide you with

immediate information and reshape the way you get crucial information about loans.

For all your residential and commercial loan requirements, simply complete our form and we will deliver you fast, accurate results. Lending Universe is your first step to securing the residential or commercial loans you need.
